## NYCL Girl 10/10 – 2018 in California

When NYCL Started in 2014, there were only a couple junior girl players who played cricket. NYCL Continued to support the junior female cricket development by allowing the girls to play one level lower. In NYCL 2018 we had more than 20 junior girls who registered, and it gave the foundation to start NYCL Girls, a junior cricket tournament dedicated to female cricket development.

NYCL Girls event in California was represented by about 70% of Junior Girl Cricketers in USA (Age 14 and Under).

This video highlight gives complete coverage of the first game and is reflection of the female potential it holds in USA Cricket. If nurtured properly, some of these can potentially not only represent USA in a few years, but also make it proud by their significant contributions.

Most of these girls are very grateful for the NYCL Platform and the stage it has provided for them to adopt and grow with the sport.
